

Dr. Schalberg's Fertility Protocol

Welcome... we are honored that you have chosen us to support you through your fertility journey. Infertility is a complex issue and can involve both physiological and psychological factors. Dr. Schalberg's Fertility Protocol addresses both.

***It is recommended that the patient have blood work performed before starting the protocol. The partner's semen should also be tested.

The protocol is 12 weeks long consisting of 16 treatments.

Treatment begins 7 days after the first day of your period.

2 treatments per week for the first 4 weeks. 1 treatment per week for the last 8 weeks.

During the first 8 weeks of the protocol, sexual intercourse is discouraged.

Protocol Policies and Consent:

I, _____ (print name), understand that by purchasing Dr. Schalberg's Fertility Package, I am purchasing the protocol, not the treatments. I understand that these treatments focus on fertility only and any other health issues will have to be addressed separately. I also understand it is my responsibility to follow the protocol and if any treatment is missed, that treatment is lost and cannot be used at another time. I understand that no guarantee has been made concerning the outcome of Dr. Schalberg's protocol. I understand there will be no refunds if I decide to cease treatment during the twelve weeks of the protocol.

Signature: _____ Date: _____

Dr. Schalberg highly recommends a vitamin and herbal regimen. These supplements are sold separately.
